### Eugenia Tusquets

After enjoying wide exposure and critical success throughout Spain and Mexico, Barcelona-born Eugenia Tusquets will hold her first major exhibition of new artwork in the United States.

The CNA presents Ms. Tusquets' collection of paintings, oil on masonite drawings and pencil on paper starting April 18 thru May 8. Says the artist, "I do not attempt to surprise others with some

kind of virtuosity, but to succeed in expressing my truths . . . I detach the human creatures of my paintings from feelings inspired by fashion or accidental reality, but I cannot place myself totally outside these realities. For me, reality is not a spectacle, it is a source, a point of departure, an opportunity, a vehicle for painting."

CNA is located at 142 Fillmore St. (at Waller) in San Francisco.
